Stocks Are Heavy.

NEW YORK, Dec. 22.—Stocks were heavy during the greater part of to day a spastic session, the trend of prices again denoting the uncertainties and economic problems which overshadowed and domestic and international credit conditions.

The only important branch of the list which showed a degree of strength and animus was the rails.

Admission over the holidays of the United States Senate, except that the members of the Missouri stock tax case, pro posed the resumption of call money, and reported some crop reports from the middle west encouraged a resumption of bear pressure against various speculative issues.

Cash loans rose to 15 per cent in the hour after opening at 7.

No attention was paid to the time money market, there being no general understanding that the quoted rate of 7½ per cent was little if any relation to actual rates.

Short selling was most effective in General Motors, Mexican Petroleum, Republic Steel, and steel. Sales amounted to \$1,000,000.

Railroad bonds followed the course of transportation shares, speculative issues again showing a grain of gold.

Gold bonds reacted fractionally. Total sales of rail stocks aggregated \$26,000,000.

New York Bonds.

U.S. bonds registered \$1,000,000.

U.S. coupon bonds registered \$800,000.

U.S. registered bonds registered \$1,000,000.
